

CHAIN OF COMMAND

BRITISH IN NORTH AFRICA 1940-41

THE RIFLE PLATOON

The British Rifle platoon in the desert had incorporated the organisational changes of 1940 and was now fielding ten men to a section. Thompson SMGs had been imported from the USA to cover the losses in equipment at Dunkirk, so this is now a well equipped platoon with ample firepower to take on the Italians. They will, however, be rather outgunned by the Afrika Korps when they arrive in early 1941.

All British and Empire units in North Africa count as Regular troops.

Most of the support options on the list will be self-explanatory and their qualities covered by the National Arsenal Table. All tanks and armoured cars come with a *Junior Leader*. Transport only vehicles, such as the car are simply vehicles which come with no crew. Remember, you will need to allocate men to drive these.

2" MORTAR TEAM

The 2" mortar has only three rounds of High Explosive ammunition, the rest being all smoke rounds. It has no theoretical minimum range, but at under 12" the crew would normally use their rifles for reasons of their own safety. However, if using a 2" mortar to fire on a target under 12" roll a D6 for each hit achieved. On a roll of 3 to 6, the shrapnel from the round has hit the target *Unit*, the enemy will dice for the Hit Effect as normal. On a roll of 1 or 2, the shrapnel from the round has hit the mortar *Team*, they must roll for the Hit Effect on Table 6.

TWIN MACHINE GUNS

The twin machine guns on the Mark VI tank fire with a firepower factor of 8 to represent the enhanced firepower.

SINGLE UNIVERSAL CARRIER

This has a crew of three men armed with a Bren gun OR Boys anti-tank rifle and a *Junior Leader*.

UNIVERSAL CARRIER RECONNAISSANCE SECTION

Two Universal carriers commanded by a single *Junior Leader*. These have a three man crew in each armed with a Bren, a Boys Anti-Tank rifle or a 2" mortar.

3" MORTARS WITH FOO

With just two mortars present in the battalion, a British mortar bombardment covers a square area 10" by 10" with the aiming point at the centre.

THE BRITISH ARSENAL TABLE

The Arsenal Table below covers a wide range of British support options. For infantry weapons and some armoured vehicle armament see Table Four, *The Master Arsenal Table*. The British use the national characteristics listed in the main rules.
